ABSTRACT	<p>The Municipality of Toulouse created a new tool in order to implement a more inclusive risk prevention policy. They created the following document, which is a register officially called "warning municipal register" aimed at elderly, disabled or isolated people.</p> <p>Thanks to this process, a vulnerable person can register himself/herself via a phone, e-mail or by filling this form and directly sending it to the municipality. If the person is not able to do it himself/herself, someone else can do it for him/her.</p> <p>Then, in case of emergency, such as heatwaves or floods for example, those persons will beneficiate from an appropriate follow-up.</p>
