ABSTRACT	<p>Civil protection national campaign for prevention, volunteers' training and information on natural risks in Italy. The website provides clear and simple informative materials on earthquake, flood and tsunami: what to know to prevent, what to do during and after these natural disasters, with photos, video, deepening, posters and leaflets. The goal of the national campaign is to inform all citizens and to train volunteers and involve them every year in risk prevention awareness campaigns.</p> <p>Multimedia tools, comics and Interactive maps help non-native citizens to better understand the risk level of their region.</p>
