<b>ABSTRACT</b>	<p>The “European Resilience Management Guideline” is a guideline that provides tools for building city resilience. The guideline is intended to be used by:</p> <ul style="list-style-type: none"> <li>- Policy and decision-makers at city level, including city councilors</li> <li>- Technical staff working on climate adaption and urban resilience implementation</li> <li>- Other city stakeholders working on resilience, including critical infrastructure managers and utility companies, service providers, emergency services, the media, civil society associations, nongovernmental organizations, academic and research institutions as well as private consultancies.</li> </ul> <p>The “European Resilience Management Guideline and its five supporting resilience-building tools were produced through a process of co-creation with municipal representatives of European and Middle Eastern cities between 2015 and 2018.</p>
